Dear We Care Foundation,

April 11 was the day that we took the Arizona Instrument to Measure Standards and I was as nervous as Micheal Jordan playing in an Olympic game. The AIMS is a test that we have to take, we take the AIMS to see and show where we stand. It is important to do well on the AIMS because it keeps me from getting assistance classes in High School. My name is Tyron, and I am in eighth grade. I attend Sevilla West School. I enjoy playing on the Sevilla West basketball team.

My favorite snack that I loved when taking the AIMS was the Cheeze Its. The Cheeze Its were square as an ice cube and they were orange. They tasted wonderful and delicious. They were filled with cheeze. This snack helped me focus on the Arizona Instrument to Measure Standards test.

I would like to thank the We Care Foundation for providing me with all of those snacks and water. It made me feel like your foundation really does care for our school and other people. You invested in the future by buying us all of those delicious snacks.

Sincerely,

Tyron

Dear "We Care Foundation",

My reaction to the AIMS test
is excited to see how I'm going to
put my learning into action! It is
excessively important to do well
on the AIMS for the reason being
it will impact your freshman
schedule, whether you receive
remedial classes or regular
classes. I am Grade 9. My current
grade is eighth and I have
attended Sevilla for three years
since Sixth grade. Well, I have
family from all over the world
mostly. I have an Italian dad,
Spanish mom, Puerto Rican
aunts and uncles and I
forget where I'm from.

The most tasteful and
delicious snack I had when
I was taking the AIMS was
the Cheese-Itz. They tasted
like a whole lot of cheese in
one little cheese-It Square.
This outrageously delicious snack

helped me on the exams. For example, It gave me something to chew on so that I could think of a good idea or the correct question.

We care foundation made me feel honored because you really invested in my future by giving me energy and helping me concentrate.

Thank you "We care foundation" for providing your healthy snacks and for caring for me.

Sincerely,
Gladys

Maria

April 11, 2011 was the most exhausting week of AIMS! AIMS is a test we students take each year. On this challenging test, we must put forth tremendous effort because it shows our knowledge and intelligence. It helps us in the future. AIMS is an Arizona Instrument to Measure Standards. My Name is Maria. I'm in 8th grade and I attend Sevilla West. I'm good at swimming very deep, which I learned from my brother. I've been at Sevilla West since pre-school and it's a pretty good school. The teachers are excellent at explaining stuff better than any other school in AZ.

My Favorite snack during the AIMS was the mixed Nuts, Peanuts, chocolate, and raisins. They were so delicious and scrumptious. That was the best snack I've ever had! It looked crunchy, juicy, healthy and a good snack to start my AIMS. It tasted so fantastic and I was

Excited I had it, I hope you have the same feeling too! This snack helped me on the AIMS by allowing me ^{to} concentrate on the AIMS, instead of daydreaming or thinking about your stomach growling.

Thank you We Care Foundation for providing a delicious snack for us. It really helped us on the AIMS. I felt more open to it, I bet, I did better this time, than before. You guys helped me a lot to stay focused on my work, and I really enjoyed the trail mix. It was the best! Thank you!

Sincerely,

Maria

Marina

April 11-15 was a fearful week for me. The Arizona Instrument to Measure Standards has to be taken every year. AIMS effects teens on their future.

My name is Marina. I'm an 8th grader at Ovilla West and I have been at School for three years. I don't really like sports, but I love to draw.

Mrs. Rodriguez was polite enough to give us a snack for the week of the AIMS so we would think better about reading and concentrate only on it. The snack that I loved is the cheese sticks. I loved the way the cheese tasted in my mouth while it melted. The snacks helped me by not allowing me to become hungry between the test. I understood

the reading better with a snack on my stomach.

The cheese was like a soft chewy marshmallow in my mouth, which melted with every single bite.

I want to thank the Life Care Foundation for the snacks you provided for us. It made me feel special because in the past years the teachers wouldn't do anything nice like trips for us. The snacks invest in my future because I was concentrating on what I had to do and not thinking about how hungry I was. The snacks satisfied my hunger and helped me focus on my test.

Sincerely
Marina

April is the month that makes me so anxious. It is the month of the AIMS. The AIMS is a particular test that we have to take to show what classes you have to take next year. It is a very important test so you have to do your best on it. My name is Lilia. I'm in 8th grade. I go to Schilla West School. I've been going there since kindergarten. I really care about my grades especially this year because next year is high school.

I want to thank the We Care Foundation for providing snacks to our class for the AIMS. My favorite snack was the cookies. They were delicious. The cookies looked like a circle of wonders. It was a beautiful sight. It tasted like you were biting into a crunchy desire. This snack encouraged me to do my best on the AIMS because I didn't get to eat breakfast so eating those cookies gave me energy so that I could do my best on the test.

We Care Foundation, you provided us with treats so we could do better on the AIMS. Thank you for bringing snacks. I really appreciate your effort. It made me feel so proud that your foundation believed that

I could pass the AIMS you invested
in our future by helping us do well
on the AIMS. You have believed in
us and we appreciate your generosity
by graduating from high school, attending
college and obtaining good jobs. Thank you

Sincerely,

Lita
